### Investment mix (March 31, 2026)

## How risky is it?

The value of the Fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

## No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

## Risk rating

IG Wealth Management has rated the volatility of this Fund as **low**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the *What are the Risks of Investing in the Fund?* section of the Fund's simplified prospectus.

# IG Mackenzie U.S. Money Market Fund

## How has the Fund performed?

This section tells you how securities of the Fund have performed over the past 10 years. Returns are after Fund expenses have been deducted. These expenses reduce the Fund's returns.

### Year-by-year returns

This chart shows how securities of the Fund performed in each of the past 10 years. The Fund did not drop in value in the past 10 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

### Best and worst 3-month returns

This table shows the best and worst returns for securities of the Fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested U.S. \$1,000 at the beginning of the period
Best return	1.2%	November 30, 2023	Your investment would rise to U.S. \$1,012.
Worst return	0.0%	April 30, 2017	Your investment would amount to U.S. \$1,000.

### Average return

A person who invested U.S. \$1,000 in the securities 10 years ago would have U.S. \$1,175 as of March 31, 2026. This is equal to an annual compounded return of approximately 1.6%.

## Who is this Fund for?

You should consider investing in this Fund if you are comfortable with the risks for this investment and:

- your short-term investment goal is capital stability; and
- you are comfortable having an investment denominated in U.S. Dollars.

Purchase option C is closed to new investments, but available for investments through switches from same Series of another Fund, reinvestment of distributions and existing pre-authorized contribution arrangements.

## How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell securities of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

### 1. Sales charges

The securities of the Fund are no load. That means you pay no sales charges if you buy, redeem or switch your units.

### 2. Fund expenses

You don't pay these expenses directly. These expenses reduce the annual return of the Series.

As of September 30, 2025, the Series expenses were 1.15% of its value. This equals \$11.50 for every \$1,000 invested.

	Annual rate (as a % of the Series' assets)
<b>Management expense ratio (MER)</b> This is the total of the Series' management fee (including the trailing commission) and operating expenses (including the administration fee).	<b>1.15%</b>
<b>Trading expense ratio (TER)</b> This is the Series' investment trading costs.	<b>0.00%</b>
<b>Fund expenses</b>	<b>1.15%</b>

## A word about tax

In general, you'll have to pay income tax on any money you make on the Fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, taxable fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

### More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your IG Advisor provides to you.

The Fund manager pays the trailing commission to your IG Advisor. It is paid in whole or in part from the Fund's management fee and is based on the Canadian dollar value of your investment. The rate ranges between:

- 0.04% to 0.07% per year (CDN \$0.40 to \$0.70 per year for every CDN \$1,000 invested).

## IG Mackenzie U.S. Money Market Fund

### 3. Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the Fund.

Fee	What you pay
Inappropriate Short-term trading fee	If you initiate a combination of purchases and redemptions, including switches into, or out from, the Fund within 30 days, your switches could have a detrimental effect on other Fund investors, and that may take advantage of Funds with investments priced in other time zones or illiquid investments that trade infrequently. We may charge you 2.00% of the amount you switch. This fee is payable to the Fund.
Excessive Short-term trading fee	If you initiate a combination of purchases and redemptions, including switches into, or out from, the Fund within 30 days, your switches could have a detrimental effect on other Fund investors, and we may charge you up to 2.00% of the amount you switch. This fee is payable to the Fund.

### What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

### For more information

Contact IG Wealth Management or your IG Advisor for a copy of the Fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the Fund's legal documents.
