## How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

## No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

## Risk rating

IG Wealth Management has rated the volatility of this Fund as **low**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect this Fund's returns, including, without limitation, liquidity, property valuations and investments in real property, see the *What are the Risks of Investing in the Fund?* section of the Fund's simplified prospectus.

## IG Mackenzie Real Property Fund – Series B

### How has the Fund performed?

This section tells you how Series B securities of the Fund have performed over the past 4 years. Returns are after Fund expenses have been deducted. These expenses reduce the Fund's returns.

#### Year-by-year returns

This chart shows how Series B securities of the Fund performed in each of the past 4 years. The Fund dropped in value in 1 of the 4 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

#### Best and worst 3-month returns

This table shows the best and worst returns for Series B securities of the Fund in a 3-month period over the past 4 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	5.7%	November 30, 2021	Your investment would rise to \$1,057.
Worst return	-11.0%	April 30, 2020	Your investment would drop to \$890.

#### Average return

A person who invested \$1,000 in the Series B securities at inception would have \$1,211 as of April 30, 2022. This is equal to an annual compounded return of approximately 3.7%.

### Who is this Fund for?

You should consider investing in this Fund if you are comfortable with the risks for this investment and:

- You have a long-term investment goal with a growth component, as this Fund is only intended for investors with a long term investment horizon.
- You should not invest in this Fund if you may require access to your funds quickly and/or unexpectedly or access to cash from your investment within 45 days, as:
  - The Fund invests the majority of its assets in real property, which are illiquid and are different than most mutual funds who invest in liquid assets that can be sold quickly and easily;
  - In order to sell your units, you must give us instructions not less than 30 days prior to the valuation day upon which the net asset value for the sale is to be calculated, and;
  - The net asset value of each series of the Fund is determined on the valuation day, which occurs twice during each calendar month usually on the 15th and on the last business day of the month.

### A word about tax

In general, you'll have to pay income tax on any money you make on the Fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, taxable fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

### How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series B securities of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

### More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your IG Consultant provides to you.

IG Wealth Management pays the trailing commission to your IG Consultant. It is paid in whole or in part from the Fund's management fee and is based on the value of your investment. The rate ranges between:

- 0.41% to 0.70% per year (\$4.10 to \$7.00 per year for every \$1,000 invested).

If your IG Consultant has been with us for more than four years, he or she may receive an additional annual payment of 0.06% to 0.09% of your investment (\$0.60 to \$0.90 for every \$1,000 invested).

## 3. Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the Fund.

Fee	What you pay
Switch fee	If you switch into another IG Wealth Management Fund within 18 months (548 days) from the date the units in the Fund were acquired, you may be charged a switch fee of up to 2.00% of the net asset value of any units of the Fund acquired. This fee is payable to the Fund.
Liquidity fee	If you redeem your investment acquired under the No-Load purchase option within 18 months (548 days) from the date the units in the Fund were acquired, you may be charged a liquidity fee of up to 2.00% of the net asset value of any units of the Fund redeemed. This fee is payable to the Fund.
