## How risky is it?

The value of the Fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund’s returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

## No guarantees

Like most mutual funds, this Fund doesn’t have any guarantees. You may not get back the amount of money you invest.

## How has the Fund performed?

IG Wealth Management has rated the volatility of this Fund as **low to medium**.

## Who is this Fund for?

You should consider investing in this Fund if you are comfortable with the risks for this investment and:

- you are looking for a diversified portfolio in a single investment;
- your investment goal is regular monthly income with a secondary focus on capital appreciation;
- you are willing to receive a return of capital; and
- you intend to hold your investment in an iProfile Portfolio account with either Investors Group Financial Services Inc. or Investors Group Securities Inc. You cannot hold your investment in this Fund at an account with another dealer. If you wish to transfer your investment to another dealer, you may have to redeem your Securities, which may trigger fees and tax consequences associated with the redemption.

## A word about tax

In general, you'll have to pay income tax on any money you make on the Fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your Fund in a non-registered account, taxable fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

## How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I securities of the Fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

### 1. Sales charges

Generally, there are no purchase options that attract sales charges.

When you buy this series of the Fund, IG Wealth Management may pay your IG Advisor a sales bonus of up to 2.75%. IG Wealth Management may pay your IG Advisor an additional payment of up to 40% of the sales bonus if they were appointed before October 1, 2023, and are in their first four years with us. For Advisors appointed after September 30, 2023, they will not receive an additional payment.

### 2. Fund expenses

You don't pay these expenses directly. These expenses reduce the Series' annual return. The Series' expenses are made up of the fund advisory fee, operating expenses (including the administration fee) and trading costs.

The Series' annual fund advisory fee is 0.28% and the administration fee is 0.15% of the Series' value. Because this Fund is new, operating expenses and trading costs are not yet available.

### More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your IG Advisor provides to you.

IG Wealth Management pays the trailing commission to your IG Advisor. It is paid in whole or in part from the iProfile advisory fee and is based on the value of your investment. The rate ranges between:

- 0.41% to 0.70% per year (\$4.10 to \$7.00 per year for every \$1,000 invested).

### 3. Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the Fund.

Fee	What you pay
Inappropriate Short-term trading fee	If you initiate a combination of purchases and redemptions, including switches into, or out from, the Fund within 30 days, your switches could have a detrimental effect on other Fund investors, and that may take advantage of Funds with investments priced in other time zones or illiquid investments that trade infrequently. We may charge you 2.00% of the amount you switch. This fee is payable to the Fund.
Excessive Short-term trading fee	If you initiate a combination of purchases and redemptions, including switches into, or out from, the Fund within 30 days, your switches could have a detrimental effect on other Fund investors, and we may charge you up to 2.00% of the amount you switch. This fee is payable to the Fund.
Redemption fee	You usually do not pay a redemption fee for selling securities of the Fund. However, if your investment was switched into the iProfile Program from another IG Wealth Management Fund or a Guaranteed Investment Fund and there was a redemption fee attached to it, we may charge you a redemption fee of up to 1.5% of the amount you redeem. If your original investment became subject to a redemption fee after June 30, 2016, any remaining deferred sales charge will be waived upon death of the individual owner (or last surviving owner for jointly held accounts).
iProfile Advisory fee	You pay an advisory fee directly to the Principal Distributors for investment advice and administrative services if your investment is held with them. The advisory fee will be set out in your fee agreement with the applicable Principal Distributors, who may offer you a fee reduction. Please contact your IG Advisor for more information.
