What does the fund invest in?

The Portfolio’s investment objective is to provide a combination of long-term capital appreciation with a secondary focus on income generation. The Portfolio seeks to accomplish its objective by primarily investing in securities of Underlying Funds and/or ETFs. These Underlying Funds and/or ETFs generally invest in domestic and global equity securities and/or domestic and global fixed income securities.

The charts below give you a snapshot of the Portfolio’s investments on June 4, 2024. The Portfolio’s investments will change.

Total percentage of top 10 investments		65.4%
Total number of investments		33

Investment mix (%) (June 4, 2024)

How risky is it?

The value of the Portfolio can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Portfolios with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

The Manager has rated the volatility of this Portfolio as **low to medium**. This rating is based on how much the Portfolio’s returns have changed from year to year. It doesn’t tell you how volatile the Portfolio will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Portfolio’s returns, see “What Are the Risks of Investing in the Fund?” in the Portfolio’s Simplified Prospectus.

No guarantees

Like most mutual funds, this Portfolio doesn’t have any guarantees. You may not get back the amount of money you invest.

## How has the fund performed?

This section tells you how the Advisor Series securities of the Portfolio have performed over the past 6 years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

### Year-by-year returns

This chart shows how the Advisor Series securities of the Portfolio have performed in each of the past 6 years. The Portfolio dropped in value in 2 of 6 years. The range of returns and change from year to year can help you assess how risky the Portfolio has been in the past. It does not tell you how the Portfolio will perform in the future.

### Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series securities of the Portfolio in a 3-month period over the past 6 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	10.7%	June 30, 2020	Your investment would rise to <b>\$1,107</b>
Worst return	-9.9%	March 31, 2020	Your investment would drop to <b>\$901</b>

### Average return

The annual compound return of the Advisor Series securities of the Portfolio was 4.4% since May 5, 2017. If you had invested \$1,000 in the Portfolio on May 5, 2017, on June 28, 2024 your investment would now be worth \$1,358.

## Who is this fund for?

The Portfolio is suitable for investors who:

- Are seeking a diversified portfolio of Canadian and global equity and fixed income securities
- Are looking for a simple and easy way to diversify their investments
- Are seeking a combination of growth and some income
- Are willing to accept a low to medium level of investment risk
- Are investing for the medium to long term

## A word about tax

In general, you'll have to pay income tax on taxable distributions made to you by the Portfolio and on any gains you make if you redeem your securities in the Portfolio. How much you pay depends on the tax laws that apply to you and whether or not you hold the Portfolio in a registered plan, such as a Registered Retirement Savings Plan or Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you receive them in cash or have them reinvested.

## How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series securities of the Portfolio. The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

### Sales charges

Advisor Series securities of the Portfolio can only be purchased using the front-end sales charge option.

Sales charge option	What you pay		How it works
	In per cent (%)	In dollars (\$)	
Front-end (FE) sales charge	0 to 5% of the amount you buy	0 to \$50 on every \$1,000 you buy	You and your representative decide on the rate. The front-end sales charge is deducted from the amount paid at the time you buy. It goes to your representative's firm as a commission.

### Fund expenses

You don't pay these expenses directly. They affect you because they reduce the returns of the Portfolio. As of December 31, 2023, the Portfolio's expenses were 2.26% of its value. This equals \$22.60 for every \$1,000 invested.

Annual rate (as a % of the Fund's value)	
<b>Management expense ratio (MER)</b> – This is the total of the Portfolio's management fee (which includes the trailing commission), a fixed Administration Fee and Certain Fund Costs. The Manager waived some of the Portfolio's expenses. If it had not done so, the MER would have been higher.	2.21%
<b>Trading expense ratio (TER)</b> – These are the Portfolio's trading costs.	0.05%
<b>Fund expenses</b>	<b>2.26%</b>

### More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Portfolio. It is for the services and/or advice that your representative and their firm provide to you.

The Manager pays the trailing commission to your representative's firm. It is paid from the Portfolio's management fee and is based on the value of your investment.

Sales charge option	Amount of trailing commission	
	In per cent (%)	In dollars (\$)
Front-end sales charge	1.0% of the value of your investment each year	\$10 each year for every \$1,000 invested

### Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the Portfolio.

Fee	What you pay
Short-term trading fee	2.0% of the value of securities you sell or switch within 7 days (for market timing) or 30 days (for excessive trading) of buying them. This fee goes to the Portfolio.
Switch fee	Your representative's firm may charge you up to 2.0% of the value of securities you switch to another mutual fund.

## What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- Withdraw from an agreement to buy mutual fund securities within two business days after you receive a Simplified Prospectus or Fund Facts document, or
- Cancel your purchase order within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the Simplified Prospectus, Fund Facts document or Financial Statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

## For more information

Contact Manulife Investment Management Limited or your representative for a copy of the Portfolio's Simplified Prospectus and other disclosure documents. These documents and the Fund Facts make up the Portfolio's legal documents.
