## How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

The Manager has rated the volatility of this Fund as **medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see **"What Are the Risks of Investing in the Fund?"** in the Fund's Simplified Prospectus.

### No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

In general, you'll have to pay income tax on taxable distributions made to you by the Fund and on any gains you make if you redeem your securities in the Fund. How much you pay depends on the tax laws that apply to you and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you receive them in cash or have them reinvested.

# How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series securities of the Fund. The fees and expenses - including any commissions - can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

The Manager pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment.

| | Amount of trailing commission | |
|---|---|---|
| **Sales charge option** | **In per cent (%)** | **In dollars ($)** |
| **Front-end sales charge** | 1.0% of the value of your investment each year | $10 each year for every $1,000 invested |
